Subject: Uber in South Carolina

I have recently read the articles in the paper about Uber being issued a cease and desist letter and think this is a grave error on the part of the state. Six months or so ago when I read about Uber coming to SC I was extremely excited having recently used Uber in New York, Washington DC, London, and Charlotte with great success. Cab companies in most SC cities do not adequately meet the needs of those needing transportation, the vehicles are not kept up, and drivers are complacent due to lack of competition in the market place. This decision is a step backward for our state as we work to attract new businesses and individuals to our state. I hope you all will reconsider this decision.

Regards,
David Berry

Uber has provided me with the safest rides home and I would not trust anybody else to taxi me. Please do not take them out of SC!

To whom it may concern:

I travel for a living and use Uber in every city I visit. It is a much better service than taxis and in some cases less expensive as well.

The taxi market in Charleston is TERRIBLE. Please do not ban Uber from our state. The market has spoken and it wants Uber. The state should not interfere with that.
